1 wedge monitor with band mix

1 monitor speaker with piano only

1 Wired high quality microphone SM58 Beta or equivalent

1 boom microphone stand

Lighting arrangements

*Note: Though we are in possession of our past designs, our new lighting designs for the 2022 tour are being finalized. We will have them available a **minimum** of two weeks prior to the contracted event.*

Celebrating Queen will rearrange existing house, front and rear lighting and front stage lighting. We will compliment existing lighting with special lightings that are specific to use in the Celebrating Queen live production.

We will require:

- 2 "strong" or Super Trouper follow spotlights
- 2 super hazers with consumable liquids.
- 2 super fog machines with consumables.

Stage Risers

We will require:

- 12 stage riser units- 12 inches high, 8 feet long, 4 feet wide with lockable attachments.

Video production equipment

We will require:

- 1 rear projector with a high lumen delivery system.
- 1 Video screen: 10ft by 15ft
- 1 Teleprompter Suite with all necessary functionality

Crew

Promoter will have 4 stage crew (strong, able-bodied), to assist Celebrating Queen in preparing for the evening's production.

4 stage crew to arrive no later than 12:30 PM to assist Celebrating Queen with load in.

These stage hands will also act as production assistants and will tear down after the production has concluded.

Promoter will have 2 Follow Spot Operators and 1 Sound Engineer for evening's production.

Celebrating Queen will require house access no later than 12 noon the day of the show for load in.

At that time, promoter representative will be on site to accommodate the striking of the stage production, etc.

Upon arrival at 12 PM, it is important that all production hanging apparatus on the stage is in the lowered position so that stage production materials can be hung rapidly.

Celebrating Queen will clear the building before 12 midnight.

HOSPITALITY
